Product information

SKU	4222960
Product name	Foot pedal mixing tilting Metos Proveno 4G
Dimensions	mm
Weight	2,000 kg

Description

The Metos Proveno 3G foot switch allows easy drainage of the kettle while maintaining the consistency of the food throughout the emptying cycle.
By holding down the foot switch, hands can be released from the display while the mixer continues to rotate. The tilt of the kettle can be changed during mixing by pressing the tilt buttons on the display. When pressing the mixer button on the display, the foot switch can be released without the function being interrupted.

- when tilting the mix to the kettle
  three-position pedal; middle position function, upper and lower position stop
- mounted to the kettle operating leg (on the right side)
- factory-installed
  THE DELIVERY INCLUDES:
- the foot switch is installed to the kettle
